

Management Development Programme

Uncertainty Modeling in Business Decision Making

JUN 14 - 16, 2019

&

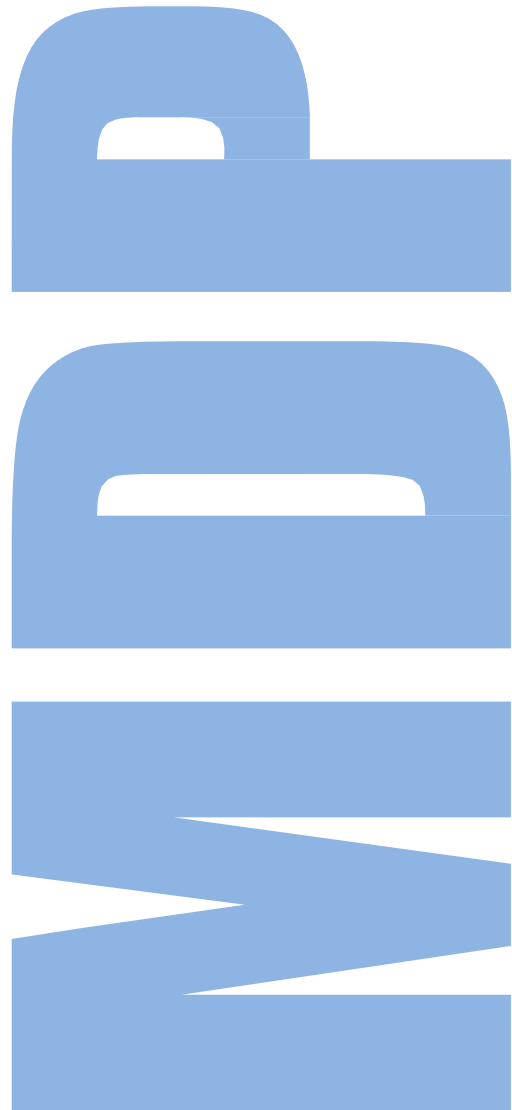

DEC 04 - 06, 2019

Programme Director

Dr. R.K.Jana

Dr. Manojit Chattopadhyay

Dr. S.K.Mitra

Introduction

For every organization, the strategic level decision making problems are highly unstructured. These problems involve several uncertain components. A strategic level decision maker is responsible for making decisions at this level. The existence and future growth of the organization highly depends upon such decisions. The tactical level decision making problems are easier compared to strategic level problems in terms of complexity. These problems are mainly semi-structure in nature and involve uncertainties. For both the strategic and tactical levels, the decision makers force to take a decision based on their knowledge and experience without taking into consideration the latest developments in the theory of uncertainty modeling. Therefore, in this MDP, we focus on introducing various types of uncertainties involved in the decision-making problems to the participants and how to make effective decisions under such situations. Various uncertain situations will be modeled and explained through real life cases and use of relevant software packages will also be demonstrated.

Objectives

The key objectives of the program are as follows:

- To understand the role of uncertainty in business decision making.
- To develop models in uncertain situations.
- To expose participants to real-life decision-making situations.
- To be familiar with the latest tools and techniques of uncertainty theory.
- To become a better decision maker.

For Whom

- Senior and middle levels Managers.
- Business consultants.
- Academic professionals
- Research scholars.

Pedagogy

- Lectures.
- Cases.
- Laboratory use.

Indian Institute of Management Raipur

Understanding the needs to meet the emerging challenges at global level and cherishing the successful history of IIMs, the Government of India set up Indian Institute of Management, Raipur in the year 2010 in Chhattisgarh, one of the youngest and fastest growing states of India.

IIM Raipur has been set up with the aim “To Empower the youth for building a Powerful India”. IIM Raipur has set high standards by focusing on a practice oriented learning approach and a contemporary industry- focused curriculum, driven by strong corporate interface.

IIM Raipur is functioning from the state-of-the-art campus in Naya Raipur spread across 200 acres.

IIM Raipur currently offers Fellow Programme in Management (FPM), Post Graduate Programme in Management (PGP), Post-Graduate Programme in Management for Working Executive (PGPMWE) and Executive Education Programmes consist of Management Development Programmes (MDP), Tailor made (In-Company Programmes), Open Programs and Consultancy for Corporates, Public Sector & Government. The academic curriculum is structured to address the needs of the industry and is aligned towards imparting contemporary knowledge to the students and strengthening their skills to prepare them to face the challenges of the global business. Recently , IIM Raipur join the hands with three most reputed global business schools, to enhance the overseas exposure of its students with the belief that it will help them to assimilate best management practices and understand the importance of cross-culture issues in management.

Right from its inception the institutes focuses on contributing to the growth and development of the Nation, region and society at large. As such it gives importance to courses and managerial trainings that are molded in a way true to the culture and unique requirements of the state and organizations herein. Ethical practices in management, grooming socially responsible leaders for today and tomorrow are also the primary goals of the Institute.
